

MAXXI II
- Your ultimate
choice of a
robust wet
and dry vac

MAXXI II

Nilfisk
ALTO
works for you

Maximum performance when dealing with both wet and dry substances

The MAXXI II platform is combining productivity, high quality and ease of use into a workhorse of a wet and dry vacuum cleaner.

It is your trusted tool when an area needs fast and efficient cleaning with minimal disruption of daily activities.

MAXXI II is ideally suited for demanding jobs, especially in rough and wet environments such as building sites and light industry, and for cleaning up after plumbers, electricians and other contractors.

Unique filter solutions

- The dual filter lets you use MAXXI II for both wet and dry applications without the need to change filters.
- The dual filter system enables you to handle different substances without intervention reducing the risk of human errors.
- A failsafe filter protection system prevents any substances from being sucked through the hose unless the filters are fitted correctly. This increases your productivity and protects the lifetime of the motor.

Hinged motor head, for a fast and safe container emptying

- The hinged motor head allows fast filter changing without lifting off the motor.
- With the motor head in place, you can easily empty the container without moving any components thus avoiding damage or loss.
- The motor head will act as a counter balance and ease your workload, when lifting and emptying the container.

The motor head can be either totally removed or lifted into the upright position to minimise the lifting and handling, normally required to change filters.

You can clean both wet and dry substances with our dual filter. We have also made it easy for you to change the filters, without removing the motor head.

Pull the release catch at the bottom front of the container, lift the container and pour. A fast, easy and efficient way to empty the container.

The drain hose is transparent, so it also works as a level indicator to show how full the container is.

The containers can be easily lifted off the trolley for cleaning or maintenance.

Ideally suited for:

- Industries
- Garages
- Building sites
- Farming

Stainless steel tube.

Single handed locking mechanisms designed for convenient and easy use.

Dual filtration for both wet and dry cleaning.

MultiFit connection.

Single handed container locking mechanism for easy emptying.

Hinged motor head makes emptying even a full container easy and effortless.

Tube holder.

Transparent drain hose.

Accessory storage.

Your robust, easy to use, wet & dry vac - at an attractive price

- Dual filter system to handle different substances without human intervention
- Easy emptying (with motor head fitted)
- Transparent drain hose (on 55 & 75 L models)
- Stainless steel tube
- Intuitive single handed locking mechanisms
- Wet sack filter protecting motor from foam ingress
- Flexible and handy mounting of tools and accessories at rear and side
- 35 L, 55 L and 75 L models

The Nilfisk-ALTO brand is owned by Nilfisk-Advance A/S, one of the world's leading manufacturers and suppliers of professional cleaning equipment.

With global company headquarters in Denmark, the company has developed professional cleaning equipment for over 100 years. Nilfisk-Advance has production facilities in North America, South America, Europe, and China, and has an extensive network of sales entities in 43 countries and is represented in more than 100 countries around the world.

The company currently has around 5400 employees worldwide, with global sales of approx. Euro 847 million in 2011.

We supply quality high pressure washers, vacuum cleaners and floor care equipment to agriculture, automotive and industrial companies, cleaning contractors and private consumers.

We are committed to the highest level of Corporate Responsibility. We develop cleaning solutions that provide you with cleaning efficiency while using less energy, less water and less detergent, so that you can focus on doing your job.

With the Nilfisk-ALTO brand we focus on innovation and growth. We believe in developing and main-taining long lasting relationships with our customers, suppliers and employees
